

350 Series

Narrow Electromagnetic Locks

SDC's 350 series narrow

electromagnetic locks provide 1200lbs holding force and failsafe access control for perimeter and interior doors that meet building security and fire life safety code requirements. The 350 series is specifically designed for high profile openings that require less obtrusive surface mount lock with architecturally superior appearance.

Unlike typical surface mount magnetic locks that project 3 to 3½" inches into openings, the 350 series lock projects only 2½" into the opening, enabling it to blend in exceptionally well with virtually any narrow frame. The best solution available to maintain the architectural aesthetics of high profile door entrances.

Retrofits existing Locknetics 350+ installation without additional modifications.

- Retrofits existing Locknetics 350+*
- Narrow housing designed for narrow frames
- Wire access chamber with terminal block
- Interlocking quick mount assembly
- Field selectable dual voltage
- Voltage and current spike protection
- Captive lock mounting screws
- Door position status (DPS)
- Bond alert status (BAS)
- Visual status indicator (LED)
